 **OCEAN RODEO**
DRYSUITS

STAND-BY MODE AND CAPTIVE ZIP

Featuring our revolutionary Captive Zip design, Ocean Rodeo drysuits blur the lines between foul weather gear and a traditional drysuit; combining the water integrity of a drysuit with the comfort of traditional foul weather pant and jacket combinations.

When worn in "full dry" mode each of our drysuits are 100% dry. In fair weather conditions or when relaxing between harsh weather exposure the suit is quickly converted to standby-mode (pictured below) by doffing the neck seal and re closing the over-jacket. When in standby mode and with the over-jacket zipped closed, the suit provides ventilation and protection on par with or superior to other leading foul weather gear ensembles. Converting from standby-mode to full dry mode can easily be accomplished while wearing your PFD.

CONSTRUCTION YOU CAN TRUST

Ocean Rodeo's waterproof breathable three layer material "VENTOR" is designed specifically for drysuits, featuring a salt water resistant non-porous, hydrophilic polyurethane (PU) breathable membrane. This fabric has been in the Ocean Rodeo lineup since 2008, with many thousands of suits in use.

(OUTSIDE *A) ABRASION LAYER:

200 Denier Nylon/Taslan with DWR finish. The tough outer fabric is coated with DWR to repel water while allowing sweat release from within your suit.

(MIDDLE *B) NON-POROUS, HYDROPHILIC POLYURETHANE BREATHABLE MEMBRANE (PU):

VENTOR works well in both fresh and salt water environments and does not break down with extended salt water use. This is the part of the suit that keeps you dry. It allows sweat vapor out while not letting any water in.

(INSIDE *C) TRICOT: NYLON 18 DENIER TRICOT SCRIM:

The inside mesh layer helps protect the PU breathable film. This is what you are looking at inside the suit.

WATERPROOFNESS
10,000MM H2O OR HIGHER *1

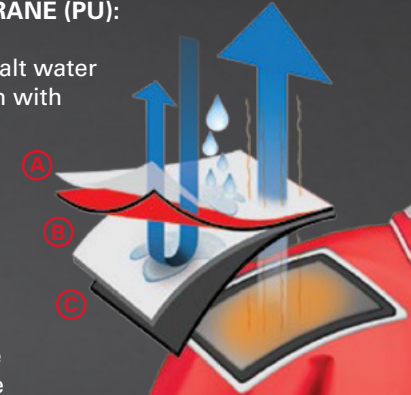

MOISTURE PERMEABILITY
5,000-7,000 G/M2/24HRS. A1 *2

WATER REPELLENCY

BOSS OPERATOR DRYSUIT

The BOSS Operator is our premium commercial boat operator drysuit.

For 20 years our in-house design team has built and designed commercial marine, military and survival drysuits for some of the world's leading brands. This isn't our first commercial drysuit. It's simply the first time we've stepped out of the shadows.

FEATURES:

- Standby or Full Drysuit mode / Captive Zip Self Entry
- Adjustable neoprene neck seal
- German made T-zip Masterseal main dry zip
- One atmosphere PK external jacket zip with stainless slider
- VENTOR salt water resistant, drysuit specific waterproof breathable material
- Extra large cargo thigh pockets
- Outer Chest Pockets
- 420 Denier abrasion overlays at knees, buttocks and crotch
- Adjustable & removable suspenders
- Oral inflate / deflate hose for buoyancy management
- Neoprene wrist seals
- Removable hood
- German made T-zip Masterseal crotch relief zip
- Jacket pockets and inside jacket stash pocket
- Integrated dry sock booties
- Wrist overlays with Velcro cinch
- Lower leg "boot cuff" overlays
- Ultra high all-weather collar, with hold down snaps
- Reflective piping
- Solas approved reflective tape
- Reflective screen graphics
- "Wader" waist belt

BOSS RESPONSE DRYSUIT

The Boss Response is designed specifically for marine operations requiring fleets of suits to be used by multiple users. Combining the fit and style of our highly mobile sport suits, with the function and durability required for the working marine environment.

The quick entry Stand-by Mode design, combined with the adjustable neck seal allows for a broad range of body sizes. Completed with neoprene hood and gloves with Solas approved reflective and colour requirements the Response meets international marine safety standards. (Contact Ocean Rodeo for details).

FEATURES:

- Standby or Full Drysuit mode / Captive Zip Self Entry
- Adjustable neoprene neck seal
- German made T-zip Masterseal main dry zip
- One atmosphere PK external jacket zip with stainless slider
- VENTOR salt water resistant, drysuit specific waterproof breathable material
- 3 mm glued and blind-stitched neoprene hood
- 3mm glued and blind-stitched neoprene gloves stored in elbow pad pockets.
- Outer Chest Pockets
- 420 Denier abrasion overlays at knees, buttocks and crotch
- Adjustable & removable suspenders
- Oral inflate / deflate hose for buoyancy management
- Neoprene wrist seals
- Removable hood
- German made T-zip Masterseal crotch relief zip
- Jacket pockets and inside jacket stash pocket
- Integrated dry sock booties
- Wrist overlays with Velcro cinch
- Lower leg "boot cuff" overlays
- Reflective piping
- Solas approved reflective tape
- Reflective screen graphics

IGNITE DRYSUIT

The professional mariner's suit of choice, re-imagined and redesigned! The Ignite is loaded with expedition style features and is designed to be worn for extended periods of time.

Now featuring an adjustable neoprene neck seal and new, highly flexible low profile zipper; the newly redesigned Ignite is 10% lighter and the best choice for offshore expeditions.

FEATURES:

- Standby or Full Drysuit mode / Captive Zip Self Entry
- Adjustable neoprene neck seal
- German made T-zip Masterseal main dry zip
- One atmosphere PK external jacket zip with stainless slider
- VENTOR salt water resistant, drysuit specific waterproof breathable material
- Outer Chest Pockets
- 420 Denier abrasion overlays at knees, buttocks and crotch
- Adjustable & removable suspenders
- Neoprene wrist seals
- Removable hood
- German made T-zip Masterseal crotch relief zip
- Jacket pockets and inside jacket stash pocket
- Integrated dry sock booties
- Wrist overlays with Velcro cinch
- Lower leg "boot cuff" overlays
- Ultra high all-weather collar, with hold down snaps
- Solas approved reflective tape
- Reflective piping
- Reflective screen graphics
- "Wader" waist belt

R2AK APPROVED

The official drysuit of the R2AK, the Ignite Offshore drysuit featuring Standby Mode is the drysuit of choice for those brave enough to face the challenge of sailing, rowing or paddling their way 750 miles up the BC coastline from Port Townsend, Washington to Ketchikan, Alaska.

SOUL CLASSIC DRYSUIT

The suit that started it all, the Soul continues to be our best selling drysuit ever. In the Soul highly refined design meets technical performance.

Built to offer you greater flexibility than any wetsuit and customizable levels of warmth the Soul features our revolutionary Captive Zip design, giving you the ability to choose fully "dry mode" or "stand-by mode".

FEATURES:

- Standby or Full Drysuit mode / Captive Zip Self Entry
- German made T-zip Masterseal main dry zip
- Two way captive over flap jacket zip
- Outer Chest Pocket
- 420 Denier abrasion overlays at knees, buttocks and crotch
- VENTOR salt water resistant, drysuit specific waterproof breathable material
- Trim to fit Polytex UV resistant seals
- Articulated knees and elbows
- Adjustable & removable suspenders
- Removable hood
- German made T-zip Masterseal crotch relief zip
- Jacket pockets
- Wrist and Lower leg "boot cuff" overlays
- Reflective piping

ALSO AVAILABLE IN BLUE

SOUL HEAT DRYSUIT

The Heat features an efficient, clean design to deliver incredible performance and reliability now synonymous with Ocean Rodeo's drysuits.

Built to offer you greater flexibility than any wetsuit and customizable levels of warmth the Soul features our revolutionary Captive Zip design, giving you the ability to choose fully "dry mode" or "stand-by mode".

FEATURES:

- Standby or Full Drysuit mode / Captive Zip Self Entry
- German made T-zip Masterseal main dry zip
- Outer Chest Pocket
- 200 Denier abrasion overlays at knees, buttocks and crotch
- VENTOR salt water resistant, drysuit specific waterproof breathable material
- Trim to fit Polytex UV resistant seals
- Articulated knees and elbows
- Adjustable & removable suspenders
- Optional soft sock booties
- Reflective screen graphics

NO - ZIP THERMAL DRYSUIT LINER

Polartec® Power Dry® fleece provides exceptional warmth and superior wicking action. A No Zip entry system reduces bulk under your drysuit, and provides greater comfort. By removing the traditional style entry zipper, you increase stretch and mobility while eliminating cold/wet spots caused by the zipper.
